PREFACE.

LOYD'S REGISTER OF YACHTS was first issued in 1878, and until the outbreak of the recent war was published annually, with the exception of the years 1916, 1917 and 1918. The last edition was issued in May, 1939. As soon as the war in Europe terminated, however, it was apparent that interest in yachting would rapidly revive, and steps were taken to prepare for the resumption of the publication of the Register.

Throughout the war much information respecting yachts has been received by the Society, and this has been carefully collated, but to compile a complete Register in time for the 1946 yachting season was impracticable. It was therefore decided that the best course would be to concentrate on the preparation of a Supplement containing particulars of new yachts and of the changes in the records of yachts and their owners which had come to hand since the publication of the 1939 volume.

This Supplement to the 1939 edition of the Society's Register of Yachts is therefore published in the belief that it will prove of much value to the yachting public, and will help to bridge the gap between the last complete Register and the next, which it is hoped to issue in 1947.

For those interested in Lloyd's Register of American Yachts, which owing to the war has not been published since 1942, a Supplement on similar lines is being issued from the Society's New York Office.

SUPPLEMENTARY REGISTER OF YACHTS.

LIST OF YACHTS, THE NAMES OF WHICH HAVE BEEN CHANGED SINCE THE ISSUE OF THE 1939 REGISTER.

SPECIAL NOTE RESPECTING CLASSIFICATION.

The Society's inspection of Yachts for maintenance of class in the Register of Yachts had perforce to be suspended during the recent hostilities.

Very few of the Periodical Surveys which have become due in the past six years have actually been held and the fact that a yacht appeared as a classed yacht in the 1939 Edition does not imply that she is entitled, at the moment, to any class at all.
